The eight colors and multiple textures in the Illuminessence Glass Series offer thousands of design options. And when you choose to combine these unique tiles with Porcelain Stone® by Crossville® or Crossville's other Design Solutions and Natural Stone products, the possibilities are endless.

**Prism Glass**, a 3 x 3 textured tile, is the cornerstone of this series. To complement Prism Glass, the line features **Prism Glass Listellos** - elegant glass liners in five different designs that evoke all the elusive magical qualities of water. Used as borders and accents, they provide infinite design possibilities.

**Water Crystal Mosaics**, one inch square jewels, blend the qualities of water, light and glass to create the magic that is Illuminessence.

### Shade & Texture Index

Illuminescence Glass in the clear and frosted finish has a shade variation of V2. The nature of the iridescent finish can result in a shade variation from V2 to V3.

### Recommended Usage

Crossville recommends Water Crystal Mosaics for interior floors, exterior walls, pool linings, fountains, showers and facades when proper installation methods are followed. Prism Glass and Prism Glass Listellos are recommended for interior walls.

### Care and Maintenance

Regular cleaning is the best way to keep your molded glass tiles looking new for years to come. Use clean, hot water (combined with a non-abrasive household cleaner or more aggressive cleaning). Rinse thoroughly and dry with a soft cloth to prevent water spots. No waxes or sealers are needed. More information regarding the care and maintenance of Crossville glass products is available at [www.crossvilleinc.com](http://www.crossvilleinc.com).
