COLOR BLOX COLOR BLOX MOSAICS

Color Blox Porcelain Stone® tile series from Crossville® celebrates the enduring power and infinite possibilities of color. Based on the color-matching theories of Crossville's highly regarded Cross-Colors® tile, the Color Blox series combines a fresh yet sophisticated palette of 20 colors with subtle variations in shading and a smooth, minimalist texture. The result is an innovative and visually dynamic material that instantly sparks the imagination of architects, designers and

homeowners alike. With its extensive selection of colors, each of which coordinates with at least two to three other colors, the Color Blox series offers the versatility to create uniquely colorful spaces. Complementary mosaics offer additional design possibilities. Whether the design calls for eye-popping impact or understated refinement, the Color Blox series can help fulfill even the most far-reaching visions. Color Blox from Crossville®... the new standard in color design.

Recommended Use

Color Blox is recommended for interior floors (except where standing water may occur), walls and countertops and exterior walls in both commercial and residential environments.

Wet area use for Color Blox Mosaics

Crossville produces these products with the Cross-Sheen® finish. They exceed current ADA guidelines and deliver a wet static coefficient of friction equal to or greater than 0.6 on the surface of the tile. Their small 3" x 3" size ensures frequent grout joints and provides traction and drainage.

Crossville cannot control situations involving incorrect installation, improper slope to the drain for elimination of standing water and poor surface cleaning.

This information is provided so that customers may make a realistic and informed decision when comparing Color Blox Mosaics to other tile products in wet area environments, such as residential/commercial bathrooms, showers and interior pool decks.

Care and Maintenance

Regular cleaning is the best way to keep Color Blox tile looking good for years to come. Use clean, hot water (combined with a household cleaner for more aggressive cleaning). Rinse thoroughly and dry with a soft cloth to prevent water spots. No waxes or sealers are needed. More information regarding the care and maintenance of Crossville products is available at www.crossvilleinc.com.

Product Performance

Breaking Strength	>250 lbf.	ASTM C648
Bond Strength	>200 psi	ASTM C482
Chemical Resistance	Unaffected	ASTM C650
Frost Resistance	Resistant	ASTM C1026
Water Absorption	<0.10%	ASTM C373
Scratch Hardness	6	MOH's Scale
Coefficient of Friction		
Dry	>0.8	ASTM C1028
Wet	>0.6	ASTM C1028
